EDUCATION

Brigham Young University – Marriott School of Business **Provo, UT**
Bachelor of Science, Information Systems | Minors: Cybersecurity & Computer Science Apr 2028

- GPA 4.00 / 4.00
- **Relevant Coursework:** ACC 551 – Risk Assurance and Information Technology Audit (graduate MAcc course), CS 235 – Data Structures & Algorithms (C++), IS 303 & CS 111 – Intro to Programming (Python)
- BYU Association of Information Systems, BYU AI Association, Marriott Inclusion & Belonging Society, Linux Association, BYU Collegiate Cyber Defense Competition Applicant

TECHNICAL SKILLS

- **Security & Identity:** Active Directory, Microsoft Intune, Jamf (MDM), least-privilege access design, IT change control (development review / CCB), IT risk & controls, UAT and test authoring
- **Development:** Python, JavaScript, C++, React, Next.js, Node.js, WebSockets, HTML/CSS, VBA
- **Data & Platforms:** SQL, SQLite, SOQL, Apex, Tableau, Salesforce (CPQ, Administration)
- **Tools & Systems:** Git/GitHub, Jira, Asana, Gearset, OS troubleshooting (Windows, macOS, Ubuntu/Linux)
- **Certifications:** CompTIA Security+ — In Progress, Nov 2026; Claude Certified Architect, Anthropic (2026); Salesforce Certified Platform Administrator (2025); AWS Certified Cloud Practitioner — In Progress, Dec 2026;

EXPERIENCE

Automation Consultant, Intern **Lehi, UT**
SOLVD.cloud (AI & Salesforce Consulting) Sep 2025 – Present

- Owned requirements and QA across an 11-week release enabling standalone quoting of a new AI product line for an enterprise software client, authoring the UAT test plan and approving the production deploy across 29 quote templates
- Designed and validated a product-rule bypass framework in Salesforce, letting Sales Ops clear 4 blocking validation rules on approved exceptions without abandoning the quote
- Converted discovery calls and mid-project requirement changes into build-ready Salesforce CPQ design drafts using Claude and meeting transcripts, producing the technical design a 3-story, 37-subtask build was developed from

IT Computer Support Specialist **Provo, UT**
Brigham Young University (Department of Physics and Astronomy) Mar 2025 – Present

- Administered identity and endpoint management for 100+ students and faculty across Active Directory, Microsoft Intune, and Jamf, provisioning accounts and enforcing device compliance policies
- Executed an access-device review that identified and removed inactive user accounts and unmanaged devices from Active Directory, reducing vulnerability
- Authored IT knowledge base documentation that reduced repeat incidents and standardized onboarding for new student technicians

Direct Support Professional **Orem, UT**
Danville Services of Utah (Healthcare and Social Services Provider) May 2024 – Jul 2025

- Documented behavioral observations and produced reports for care workers in a regulated healthcare environment handling sensitive personal information
- Supported individuals with intellectual disabilities in developing independent living skills and resolved connectivity, hardware, and internet issues to ensure reliable device access

Volunteer Representative **Richmond, VA**
The Church of Jesus Christ of Latter-day Saints Mar 2022 – Mar 2024

- Trained and coached 150+ volunteers in teaching, communication, and leadership skills
- Designed and implemented a new digital reporting system that increased key indicator performance by 30% in the region

PROJECT EXPERIENCE

- Built BunnageShield (React, Vite, Google Gemini API), a third-party vendor risk assessment tool scoring software security posture for IT teams evaluating vendors before adoption: reece-bunnage.github.io/Risk-Assessment (2026)
- Built Bucketeer (React, Node.js, IndexedDB), a local-first budgeting app integrating authenticated bank APIs (Teller, Plaid), routing credentials through a localhost proxy so financial data never reaches the browser (2026)
- Built browser-based multiplayer game (JavaScript, Node.js, WebSockets) with real-time network state synchronization and best-of-five match logic (2026)

AWARDS & INTERESTS

- **Awards:** Texas State UIL Computer Application competitor; Full Academic Scholarship; Dean's List, 4 Semesters; SOLVD.cloud Team Award (Jan 2026)
- **Interests:** Running, weightlifting, sci-fi books, ping-pong, pickleball, water sports
