EDUCATION

Brigham Young University – Marriott School of Business **Provo, UT**

Bachelor of Science, Information Systems | Minors: Cybersecurity & Computer Science Apr 2028

- **GPA** 3.98 / 4.00
- **Relevant Coursework**: Risk Assurance and Information Technology Audit, IT Infrastructure, Principles of Business Programming, Data Structures & Algorithms, Intro to Programming, Project Management and Systems Design, Database Systems
- **Clubs**: BYU Association of Information Systems, BYU AI Association, Marriott Inclusion & Belonging Society, Linux Association, BYU Collegiate Cyber Defense Competition Applicant

TECHNICAL SKILLS

- **Certifications:** Claude Certified Architect, Anthropic (2026); Salesforce Certified Platform Administrator (2025); AWS Certified Cloud Practitioner, Amazon (2026); PSM I, Scrum.org (2026); CompTIA Security+ — In Progress, Jan 2027;
- **AI:** Claude (Certified Architect), Codex, MCP integrations, prompt engineering, Claude skill creation, AI-assisted coding and document authoring
- **Security & Identity:** Active Directory, Microsoft Intune, Jamf (MDM), least-privilege access design, IT change control (development review / CCB), IT risk & controls, UAT and test authoring
- **Development:** Python, JavaScript, C++, Node.js, HTML/CSS, VBA
- **Data & Platforms:** SQL, SOQL, Tableau, Salesforce (CPQ, Administration, Apex)
- **Tools & Systems:** Git/GitHub, Jira, Asana, Gearset, OS troubleshooting (Windows, macOS, Ubuntu/Linux)

INDEPENDENT BUILDS

- Built BunnageShield (React, Vite, Google Gemini API), a third-party vendor risk assessment tool scoring software security posture for IT teams evaluating vendors before adoption
- Built Bucketeer (React, Node.js, IndexedDB), a local-first budgeting app integrating authenticated bank APIs (Teller, Plaid), routing credentials through a localhost proxy so financial data never reaches the browser
- Built Web Brawler (JavaScript, Node.js, WebSockets) with real-time network state synchronization

EXPERIENCE

Automation Consultant, Intern **Lehi, UT**

SOLVD.cloud (AI & Salesforce Consulting) Sep 2025 – Present

- Opened a new revenue stream for an enterprise software client by owning Salesforce CPQ requirements and QA for a go-to-market release that lets sales quote its new AI product line on its own for the first time
- Eliminated time-consuming quote rebuilds for the client's Sales Ops team by prototyping a Salesforce CPQ rule-bypass framework, then owned the follow-up project the team requested after adopting the first
- Volunteered for and earned Anthropic's Claude Certified Architect credential, passing second at the firm and contributing one of the 10 certifications that qualified it as an Anthropic partner

IT Computer Support Specialist **Provo, UT**

Brigham Young University (Department of Physics and Astronomy) Mar 2025 – Present

- Reduced unauthorized-access risk by leading an Active Directory and asset review that removed 30 accounts left active after users and contractors departed and reconciled 250 device records
- Authored 5+ self-service IT guides on printers, network drives, and SCCM, enabling new technicians to resolve issues without escalating and faculty to fix common problems on their own
- Moved department endpoint management to the cloud by migrating every SCCM-managed device to Microsoft Intune and getting the full IT team trained, while enforcing security policies across 700 devices

Direct Support Professional **Orem, UT**

Danville Services of Utah (Healthcare and Social Services Provider) May 2024 – Jul 2025

- Supported individuals with intellectual disabilities in developing independent living skills and resolved technology issues
- Documented behavioral observations and produced reports for care workers in a regulated environment, handling sensitive personal information for people in need of supported living services

Volunteer Representative **Richmond, VA**

The Church of Jesus Christ of Latter-day Saints Mar 2022 – Mar 2024

- Led and mentored 150+ volunteers in teaching, communication, and leadership skills
- Designed and implemented a new digital reporting system that increased key indicator performance by 30% in the region

AWARDS & INTERESTS

- **Awards:** Texas State UIL Computer Application competitor; Full Academic Scholarship; Dean's List, 4 Semesters; SOLVD.cloud Team Award (Jan 2026); Finalist, 14th Lucid Programming Competition
- **Interests:** Running, weightlifting, sci-fi books, ping-pong, pickleball, ice skating
